Full-Stack Developer | AI Engineer
ashishp.292007@gmail.com | Ahmedabad, Gujarat | ashishprajapati.me

Full-stack developer who builds and ships production web applications, developer tools, and AI-agent products. Strong across React, Next.js, TypeScript, Node.js, Python, Rust, databases, APIs, and rapid product delivery from idea to public release.

EXPERIENCE

AI/ML Intern - Hooman Digital | Remote | Jun 2026 - Present

- Built and shipped the Lori product website with React and Next.js (lori.sh).
- Contributed to Lori, a desktop AI workspace for work and code, including the local-first Tauri and Rust desktop backend.
- Worked on multi-agent coding sessions, MCP configuration, and session management.
- Shipped end-to-end product features for agentic coding and multi-agent developer workflows.

Full-Stack Developer - Freelance / Contract Projects | Remote

- Built and extended a bolt.new-style web application with PostgreSQL, authentication, role-based access control, subscriptions, payment integration, and AI credit usage tracking.
- Delivered UI and brand redesigns, new product flows, backend APIs, and stability improvements through refactoring and bug fixing.
- Technologies: TypeScript, React, Node.js, PostgreSQL, UnoCSS.

Machine Learning Intern - InfoLabz | Ahmedabad, Gujarat | May 2025 - Jul 2025

- Applied Python-based workflows for data preprocessing, model training, evaluation, and introductory deployment under mentor guidance.

PROJECTS

Orbit Editor - Open-Source AI Code Editor | orbiteditorai.com | GitHub

- Built and shipped an open-source Cursor alternative with a desktop editor, AI agent workflows, Ask/Plan/Agent modes, checkpoints, MCP integration, reusable skills, and bring-your-own-provider support.
- Reached 2,000+ downloads and 60+ GitHub stars; released public beta builds for macOS and Windows.
- Technologies: TypeScript, React, Electron, VS Code codebase, Tailwind CSS, MCP.

Milkey AI - AI Agent Skills Platform

- Built a hosted skills platform that delivers reusable AI-agent guidance at runtime across Codex, Cursor, Claude Code, Windsurf, and product integrations.
- Reached 2,000+ users at launch; implemented MCP, REST API, and TypeScript SDK paths with authenticated access, usage visibility, and centralized skill delivery.
- Technologies: Next.js, Hono.js, Go, TypeScript, MCP, REST APIs.

Ventmark - India-First Startup Directory | useventmark.com

- Built Ventmark, a full-stack web product and India-first directory of startups and founders, with free listings, founder profiles, and public startup pages.
- Reached 200 users; implemented the listing flow (basics, details, website verification) and publishing so pages go live without a review queue.
